What do I like about my school?

“What do I like about my school?” There are lots of things, such as teachers, school facilities and my classmates. I am so lucky that I have many humorous friends. They always stand by me. I am never alone as I a Ng Wah student.

A lot of people are as kind as angels around me. They include my dear teachers. My favourite teacher is Miss Lee, who teaches me English. I never feel bored during her lessons. She always cares about us and never shouts at us unless we do something wrong. I like her very much and hope that she can teach me until I graduate from Ng Wah.

Friendship always supports me when I am facing problems. My friends are so helpful and humorous that they can give me the courage to overcome all difficulties. They are so generous too. They always share their food with me. They are important to me in my life.

Perhaps we can be friends forever in the future. In Ng Wah catholic Secondary School, I have learned a lot.
