

Yeung Ho Yin 1E (38)

Good morning principal, vice-principal, teachers and schoolmates,

Today, I would like to share a topic with you --- Be happy with what you have. Nowadays money plays an important role in our life. We need money to buy the basic necessities, such as food and clothes. Many students may find that the reason why we study hard is not to enhance our knowledge, but to get good results in our exam to find a better job and earn more money in the future .

However money cannot always bring happiness. It cannot buy family, love and friendship. Perhaps you would say, I have a lot of money and friends. Have you ever thought that then may not be your true friends ? They may just want your money. Those care about you and help you get rid of difficulties are your real friends

To conclude, people who earn lots of money may not be happy even though they have all the things they need. But I' m sure that those who are happy with what they have can lead a delightful life.

Be happy with what you have! Thank for listening!
