

Good morning, Principal, Vice-principals, teachers and my fellow schoolmates.

I am Leung Yu Ching, the committee member of English Club. Today is the second day of English Week. As one of the banners in the school mentions the importance of English is that it enriches. The English Club has provided interesting activities to enrich the English environment at school.

First, we have the English movie show. The movie is "Mr Bean". It will start at 12:00pm in the Student Activity Room. All students are welcome.

The second activity is "Trivial Pursuit". This is an easy game with interesting questions. Students can find all the answers by going to the library, using the internet, or asking others such as peers, teachers, librarians or friends during recess and lunch hour.

There is also the book exhibition in the school hall.

So, students, remember joining all these activities enriching your English.
