

## *National Car Free Day*

Good morning Principal, Vice Principals, teachers and my fellow schoolmates.

Two days ago was a special day. It was the "National Car Free Day." On that day, all of us were advised not to drive our own car but to travel by using public transport. This special day was meant to send us a message about protecting our environment. This idea is very positive and some celebrities including Donald Tsang supported this activity by going to office on foot.

The earth belongs to us, therefore we should try our best to protect it. Although it is impossible to have "Car Free Day" every day, we should try our best to support using public transport all the time. Then, our earth will become healthier, and I'm sure that our future will be brighter.

Thank you.
