

Students with Special Educational Needs

Good morning Principal, Vice- principals, teachers and fellow schoolmates.

Today I would like to take this opportunity to express my view about students with special educational needs who need to leave school after 18 years old. First, I disagree with the government's decision. This is an act of discrimination against the students. I think our community should provide enough resources for all students regardless of their special needs. Second, I feel pity for these students because their appeal was not successful and they cannot receive normal or compulsory senior secondary education.

Last but not least, the government should try to balance the resources among all students. Otherwise, some students will become helpless. If students have learning difficulties, we should be fair to them and help them by making every possible resource available to them. That's all for my sharing, thank you.
