

## Speaking English

Good morning, Principal, teachers and fellow schoolmates.

How are you today? Some classmates asked why I speak to them in English during the assembly. I told them, "I want to improve my oral English." Let me ask you a question. Why are you fluent in Cantonese? It's because you speak Cantonese every day.

Therefore, according to this theory, the more you speak English, the better your English will be. Remember, "Practice makes perfect". Also, I believe that if I speak English with my classmates, they will help me by correcting my mistakes.

Next time when I speak English with you, please try your best to help me - speak English with me. Thank you.
