

## *Benefits of Morning Assembly*

Good morning, Principal, teachers and fellow schoolmates.

Today, I would like to share with you all the benefits of having a morning assembly everyday. First, it provides us a good opportunity to meet together. It is a symbol of unity of our school. It helps us to cultivate a sense of belonging towards our school. It trains us to behave well and learn to respect and appreciate what others have done for us. Second, the morning assembly provides a channel to release information related to our school life such as the club activities and extra-curricular activities. We can know what is going on around us in school everyday.

Besides, the morning assembly also provides a golden opportunity to speak English in ONE-minute, which I believe is very important in developing our confidence in speaking English in front of a lot of people, just what I'm doing now. It provides a training platform for both students and teachers in sharing their ideas about cultures, festivals and current affairs.

So remember enjoy morning assembly in school everyday. Thank you.
