

My Experience Of Learning English

Good morning, Principal, Vice-Principals, teachers and fellow schoolmates.

Today, I would like to share with you all my experience of learning English.

With the suggestion from my English teacher, I watch TV news every evening. Watching TV News allows me to learn a lot of new vocabulary. Although the host speaks very fast, this is not a difficulty to me because my English teacher highly recommends us to watch the news again in the TVB website again. With all these practices, I feel more confident in using English. In other words, I am willing to speak English in front of other people. You could also improve your intonation and pronunciation of certain difficult words.

Besides, it is also very useful to improve your English proficiency if you read more story books or articles from the newspapers. You can choose the interesting one to read. Actually, you can learn faster if you are interested in that area. So if you want to improve your English, you have to read or listen to something that interests you.

However, if you want to improve your English, you have to pay attention during English lessons. You have to immerse yourself into an English environment. You have to use English everyday. You have to speak English every day both inside and outside the classroom. Thank you.
