

## *Pleasure of Reading*

Good morning, Principal, Vice-principals, teachers and fellow schoolmates.

Today I would like to share with all of you the pleasure of "reading". For me, being without a book is like being a fish without water. Reading is not only the pleasure for me, but also an essential element in my life. This is a necessity to all people. In fact, reading has a lot of advantages. First, reading can educate people, and also broaden our horizons. Reading can help to develop your knowledge and let you become a more understanding person.

Of course, when you feel bored, reading is the best way to pass your time and let you have leisure. You can learn many life lessons when you read because there are many new ideas and knowledge there. I like to read novels, both in English and Chinese. Every time, when I finish reading a novel, I find that I have experienced something special in my life.

In a cosmopolitan city like Hong Kong, the best way to take a rest for your mind is to sit down and get to read your favorite novels or magazines. Next time when you feel bored, read a book of your favourite writer. I am sure you will have a fresh new experience. Thank you.
