

My Experience of Learning English

Good morning, Principal, Vice-principals, teachers and fellow schoolmates.

Today I would like to share with all of you my experience of learning English. When I was studying in junior form, it was terribly difficult for me to learn English. It was because I found this subject was very strange to me, especially the pronunciation and the grammar. It seemed that they were so alienated to my life. I found that I did not need to use English in my daily life.

However, one day, when a foreigner asked me the direction, I could not answer him because I did not know how to answer his question. I felt very embarrassing and a bit shameful. Of course, from then on, I started working hard on my English.

The first step for me is to pay attention in every English lesson. I hand in my English homework on time. Starting from Form 4, I have taken the suggestions of my English teacher and I watch TV news and listen to English radio channel. Although my English proficiency is still not good enough at the moment, I have confidence that if I continue to work hard, I can speak and write well. I believe that where there is a will, there is a way. My dear schoolmates, everyone of you can achieve what you want if you are determined. Thank you.
