

My Goal in Life

Good morning, Principal, Vice-principals, teachers and fellow schoolmates.

Today I would like to share with you my goal in life. Do you agree that life without a goal is like sailing on the sea without destination? It is quite sad not knowing where to go or where to stop, especially when we stay in the crossroads of life. I always believe that having a goal which we believe in gives us direction, stability and the opportunity for fulfillment.

Being a good student at this moment has been my goal in life. I agree that studying is a bit boring to all young people. However, when you think about the bright future you will receive if you work hard now, you will forget all the painful challenges during your studying. Some subjects will be too difficult to us, but if you are willing to use a positive attitude, patience and dedication to face all these difficulties and to fulfill your goal, I am very sure that everyone standing here today in this playground will become the very successful people in the future. So let us work hard together to get our goals fulfilled. Thank you.
