

## Value of Life

Good morning Dr. Wong, Vice-principals, teachers and fellow schoolmates,

Today I would like to express my view on value of life. Everyone has their unique view on value of life, like possessing lots of money, being prestigious or leading a bathetic life. Sometimes, we may lose our direction in life and don't know why we should strive for. Therefore, we have to find our own value of life. When I was studying in primary school, my teacher already said that life should not contain figures only. To find our own value of life is the most important part of our life-long goal. In my view, the true value of life is not just fame and wealth. The actual value of life is to devote ourselves to our family, our society and our homeland. Sometimes, there may be obstacles in our way. However, we should not be scared or feel shameful. We should be fearless in face of failures. What is more important is to learn from our mistakes.

To create, to celebrate, to achieve – Life will be more beautiful. I wish you all a beautiful life!  
That's the end of my sharing, thank you!
