

Money

Good morning, Principal, Vice-Principals, teachers and fellow schoolmates.

Today I would like to share with you the topic of "Money". It seems to everybody that money plays an important role in our modern society. Money, in fact, allows us to meet the basic needs of our daily life, such as buying food and clothes. We need enough money to pay for our travelling fees and lunch every day.

Our parents have to earn enough money for all the expenses of the family. Money is the element everywhere. We study well and get the university degree to get a good job. That is also the path to let us become financially independent in the future. So, it is also about money!!!

However, in this world, there are many many things we cannot buy with money. They are happiness, love, health and time. No matter how wealthy you are, you cannot use money to get them. Money can be very evil. Therefore, we should not become the slaves of money. We should spend our money wisely. Thank you.
