

My Experience of Buying Books

Good morning, Principal, Vice-principals, teachers and fellow schoolmates.

Today I would like to share with you my experience of buying books. To many girls, shopping is a very good experience. They can buy lots of beautiful clothes and accessories. However, for me, I like to shop for books. It is true that beautiful clothes can decorate one's appearance. Books, on the other hand, can beautify our minds and make us more educated and open-minded.

Buying different kinds of books is my favourite hobby. In addition to all kinds of novels and essays in Chinese and English, I like comics very much. When literature can broaden our horizons in thinking, I strongly believe that comic books can also entertain us during the leisure time.

From buying books, we can also go to the issue of reading. Of course, if you only buy the books but never read them, it will be a waste. So, remember next time when you buy a book, try to finish it and absorb all the knowledge. Thank you.
