

## *My Best Friend - Television*

Good morning Dr. Wong, Vice-principals, teachers and fellow schoolmates,

Today, I would like to introduce to you one of my best friends – television. Television is one of the greatest inventions. The first television was invented in 1926. Since then, we can know the news all over the world. We can also watch different kinds of programme on TV such as news, cartoons, dramas, movies, cookery programs etc.

I like watching TV very much. When I return home from school, I turn on the TV at once. And I watch my favourite programmes, music shows and cartoons. I have a lot of fun when I am watching TV. I think that TV is my best friend and we will live happily ever after.

That's the end of my sharing. Thank you!
