

Say NO To Drugs

Good morning, Principal, Vice-Principals, teachers and fellow schoolmates.

Today I would like to share with you "Say **NO** To Drugs". Drug abuse has become a serious problem among the teenagers these days. With reference to the recent news, we know that there are many evidence showing the bad results caused by drug abuse in Hong Kong.

Most teenagers begin to take drugs out of curiosity. It is true that once they start taking drugs, they find it hard to quit and many of them become addicted. As a result, they will spend lots of money to buy drugs. This will also led to many unhappy social and family problems among themselves and their family members. Of course, if these teenagers use up their own money, they often turn to criminal activities. This will cause problems to our society.

The most important way to stop drug-taking very much depends on the teenagers themselves. They should, in fact, try to make good friends, and also cultivate decent interests. At the same time, our government should also enact the stricter laws to punish drug dealers. Remember, No drugs No Regrets. Thank you.
