

## *My School Life*

Good morning, Principal, Vice-principals, teachers and fellow schoolmates.

Today I would like to share with you my school life. To everybody in the playground here understands that our school is like a big family. Our school has a very delightful campus. The main building has seven storeys and is able to hold more than one thousand two hundred students.

In my view, Ng Wah is a school which always keeps academic and extracurricular activities in balance. Our principal and teachers often encourage us to take part in different kinds of activities in order to develop our scope of knowledge in academic subjects and social issues. We also have a lot of experienced teachers teach us. It is fortunate enough for us to be nurtured by these groups of dedicated teachers. They shape our personality and temperament. Besides, they also often train us to think independently and adapt to the changing society.

Ng Wah is a place which provides training for us in leadership, cooperation and creativity. It aims at cultivating all-round and well-balanced students. It is also a place taught us to accept challenges courageously. So Ng Wah boys, remember try to enjoy all your school days here. Thank you.
