

Newspapers

Good morning Dr. Wong, Vice-Principals, teachers and fellow schoolmates,

Today I would like to share with you my views of newspaper. Newspapers stemmed from 16th century by a knowledgeable old person. The style of initial newspapers was similar with that of the books – the layout was the same and there was no title.

Nowadays, newspapers can be found everywhere and they have become very colourful. People read newspapers when they are on the way to work or return home. Newspapers are informative and educational. They enable us to know everything around the world even if we are confined at home. Newspapers include news related to economics, social issues, weather, classified post so on and so forth.

Newspapers also reduce the distance as well as the barriers between people. Reading newspapers can widen our horizon. It is useful for our studies as well, especially the subject Liberal Studies. Reading newspaper is fun. Besides playing ball games or computer games, why not try reading newspaper? Let's start today! Thank you!
