

Getting to Know Beijing

Good morning, Principal, Vice-Principals, teachers and fellow schoolmates.

Today I want to tell you about Beijing. When people think of Beijing, they usually think it is the capital of China and has lots of attractions. But if you visit Beijing, you will see more than you know. If someone said that you can either visit Beijing or Japan free, I will choose Beijing quickly because it is an amazing and wonderful place and has a long history.

Attractions in Beijing include The Great Wall, National Aquatics Center, Museums, and of course the most famous ancient palace. All are worth visiting as everything has different stories look like the Great Wall. Staying in the palace will be an unforgettable experience. It is bigger than the other one. If you also like nature, you will enjoy Beijing's natural beauty such as visiting the Great Wall. You can spend time on visiting the Museums and know more history of Beijing too.

Natural and cultural heritage, mountain and lowland; Beijing is a destination that tourists should not miss. Bear in mind to travel to this place some day. It will be your nice and memorable experience. Be sure to hire a local guide to accompany you. Thank you and have a nice day!
