

Examinations

Good morning, Principal, Vice-Principals, teachers and fellow schoolmates.

Today I would like to share with you the topic "EXAMINATIONS". Do you agree that examinations are a necessary evil? Why? Is it because you feel that examination leads to the nervous breakdown and suffering of students? Very sorry, I don't agree with the statement. First, examinations are often regarded as the key to success. This is used to judge the progress of students. Only those lazy schoolmates will be overwhelmed with anxiety for the examinations. They will burn midnight oil for the approaching examinations.

However, we should understand that examinations are a popular form of testing students' ability in applying their knowledge. It drives students to learn more and study more thoroughly, and also trains us to organize ideas and develop a quick mind. Clearly, examinations force us to be careful and work out a way. May I take this opportunity to wish all of you a very successful examination in coming June. Thank you.
