

My Favourite Novel

Good morning, Principal, Vice-Principals, teachers and my fellow schoolmates,

I am Cheng Kwan Ho Ivan from S5B. Today I would like to share my favourite English novel with you. This book is Harry Potter and the Philosopher's Stone. It was written by J.K.Rowling. The novel was later made into a film of the same name. The novel describes Harry Potter's life when he was 11 years old. Everything changes suddenly when a mysterious letter arrives by an owl messenger, a letter with an invitation to a wonderful place Harry never dreamed existed. In that place, he found not only friends and magic around every corner, but a great destiny waiting for him. I like this book because Harry Potter is a magic genius. This book is a joy to read and possibly one of the most rewarding young adult's book because all the characters in this book remind us the people we have met in reality. Actually, a large number of younger readers will also be able to easily identify with Harry, especially with his initial feelings of isolation and not belonging. It is true that Harry has a very happy ending in this novel since he understands the importance of happiness. If you have time, please go to the school library and try to read this wonderful novel and enjoy its story. This is the end of my sharing. Thank you!
