

Morning Prayer and Sharing
7th December 2022
S4A Tang Ho Yin

Let us pray.

In the name of the father and of the son and of the holy spirit
amen.

Our Father in heaven, holy be your name. Your kingdom come,
your will be done, on earth as it is in heaven.

Give us today our daily bread and forgive us our sins, as we forgive those who sin against us.

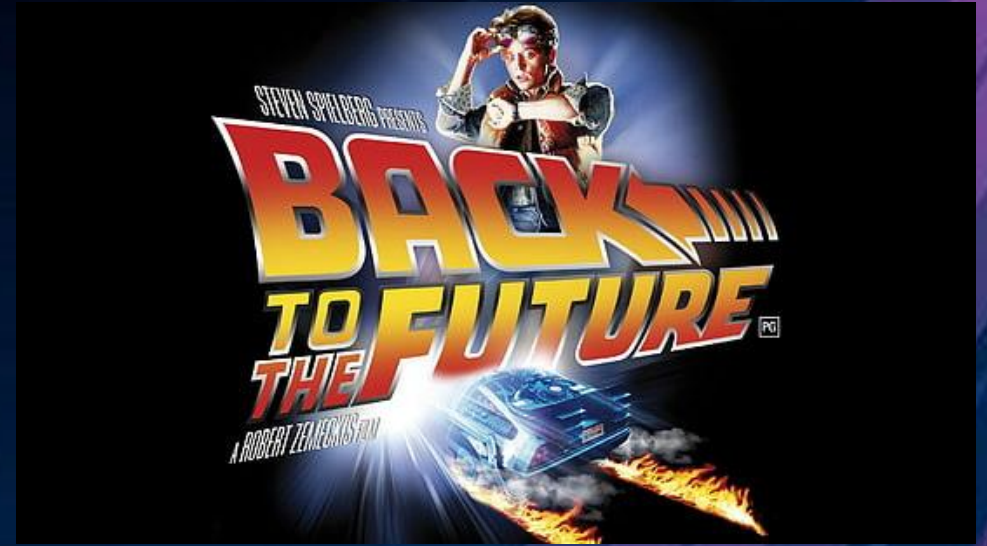

Do not bring us to the test,
but deliver us from evil. Amen.

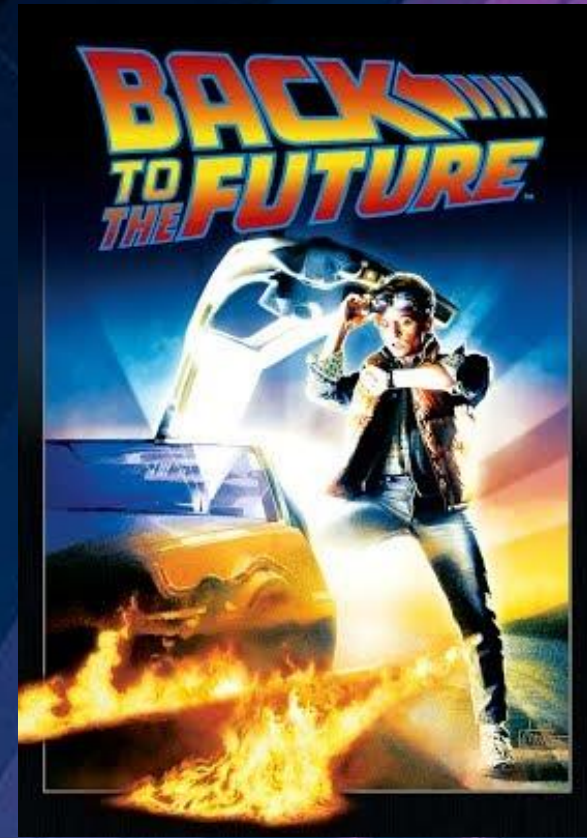

In the name of the father
and of the son
and of the holy spirit amen.

My Favorite Movie Back To The Future

Hello everyone. Today I would like to talk about my favourite movie. It is called "Back To The Future". This movie is a 1985 American science fiction film and a critical and commercial success, It has earned \$381.1 million and became the highest-grossing film of 1985 worldwide.

“Back To The Future” is a sci-fi adventure comedy about Marty McFly who is stuck in a small town trying not to grow up to become his father George , who’s still under the thumb of his high school bully.

When the time traveling experiment by his friend Doc Brown goes wrong, Marty is transported back in to 1955 and accidentally prevents his parents from meeting, in the process risking erasing himself from existence.

The logo for the movie "Back to the Future" is displayed in a stylized, bold font. The word "BACK" is in a large, yellow-to-orange gradient font with a blue outline. The word "TO" is in a smaller, yellow-to-orange gradient font with a blue outline. The word "FUTURE" is in a large, yellow-to-orange gradient font with a blue outline. The words "TO" and "FUTURE" are positioned below "BACK". The entire logo is set against a dark blue background with purple and blue geometric patterns and lines.

**BACK
TO
THE FUTURE**™

The audience like “Back To The Future” because it includes all the likeable and quirky cast members. There are a lot of elements & scenes which people of most age groups can enjoy. Although I am not born in 1980s, I was attracted by the interesting story plot involved with destiny, repression, and family.

During the production of “Back to the future”. The production team behind this movie has a lot of ideas to go with the movie, such as putting a time machine in a refrigerator and in vehicles. They decided to go on with the car design at last.

The movie even added four fire jets to the car, which shoot flames from the vehicle as it accelerates and prepares for travel. In fact, you can find tons of sci-fi ideas in the movie.

I really like “Back To The Future” because it gives me nostalgia feeling. To a great extent, I think each of us are relying on something, like Marty is relying on the time machine and his best friend. I think the destruction of the time machine in the ending is trying to tell us the future is unwritten. This means the future is filled with infinite possibilities.

Dear all, when you think you cannot do it without someone or something you can rely on. However, it is true that if we imagine they are standing with you, and pushing your back, then we will succeed in the future. I hope all of us can become a person with infinite possibilities. This is the end of my sharing, thank you!
